## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

Pelham, New Hampshire

February 21, 1944

*To the School Board and Citizens of the Town of  
Pelham:*

I herewith submit my third annual report as Superintendent of Schools:

There were no changes in the teaching staff in the elementary schools during the summer. We were fortunate in securing Ethel Morris York for the centralized sixth grade in the junior high school building. The opening of the lower room has relieved the pressure of numbers on the Gage Hill and Center Schools. The Gage Hill school is now made up of five grades with an enrollment of twenty-five. This makes a very well-balanced school. I am sure that much more can be accomplished with that number in five grades.

After moving the sixth grade from the Center School to the Junior High, we found that the number enrolled was going to be too large for the most efficient work. Including those from Currier Highland, there were ten children enrolled in the fifth grade. We finally decided that since North Pelham was too small for the best organization of classes, we could easily transfer the fifth grade to North Pelham. This left four grades and twenty-seven children in the Center School. The change has worked out very well for both North Pelham and the Center Schools. A teacher with four grades can do much better work than with an overloaded group made up of five grades.

Late in the summer our junior high school, made up of grades seven, eight and nine suffered a severe loss. The Headmaster, Mr. Hastings, resigned to take a similar position at Derry. About the same

time Miss Morill resigned to take a position of English at Pinkerton Academy. We were unable to secure, at the time, experienced teachers, consequently the re-organized school got off to a poor start. Both teachers resigned soon after the mid-year. One teacher has been secured and another has been engaged as substitute for the remainder of the year. The same subjects will be studied but the whole work will be re-organized and divided among the three teachers. The prospects are bright for a greatly improved school for the remainder of the year.

If, for another year, it is impossible because of scarcity of teachers to secure competent experienced people, I recommend considering the project of sending the ninth grade to Lowell or other near-by high schools, for the duration. It seems easier right now to get grade teachers than teachers who are qualified to teach the high school subjects.

In closing I wish to express my appreciation to the School Board and all others who have cooperated so wholeheartedly to make our school successful in every way.

Respectfully submitted,

GAIUS H. BARRETT,  
Superintendent of Schools.

## REPORT OF THE SCHOOL NURSE

---

Pelham, New Hampshire

February 1, 1944

*To the Superintendent of Schools, the School Board  
and the Citizens of the Town of Pelham:*

I present my report as school nurse from February 1, 1943 to February 1, 1944.

Number of pupils examined (3 examinations)	492
Number of pupils having defective vision	9
Number of pupils having defective tonsils	69
Number of pupils having measles	38
Number of pupils having impetigo	1
Number of pupils having scabies	2
Number of pupils attending small pox clinic	12
Number of home visits	143
Number of school visits	166

Due to present conditions we were unable to have a dental clinic so we asked the pupils' parents to co-operate and see to their children's dental problems.

The soup project sponsored by the P. T. A. has been discontinued because of rationing, but this does not mean that the children cannot have something hot at noon as we have facilities to heat food of any kind if the pupils desire to bring it.

After the pre-school clinic last May, Dr. Winograd of Nashua, N. H., vaccinated twelve children for small pox for a small fee. We had a mild epidemic of measles last March and they were scattered over the whole town.

Respectfully submitted,

ANNA M. HORSKIN, R. N.

School Nurse.

## HOME FOOD PRODUCTION

---

Patriotism, prudence, and protection of health combine to urge that in 1944 every family produce and preserve for home consumption as much of the family's yearly food supply as possible. Home food production will assure our own food supply, will release more foods for the armed forces and lend-lease, will help meet the national goals, and will relieve transportation, labor and equipment shortages.

To help families with their plans for food production and preservation at home, the University of New Hampshire Extension Service lists the following free bulletins for your use:

Hotbeds and Cold Frames	Ext. Circ. 214
The Home Vegetable Garden	Ext. Circ. 170
Vegetable Storage	Ext. Circ. 140
Tomatoes for Good Health	Ext. Circ. 220
Control of Insects and Diseases in the Home Garden	Ext. Circ. 253
